

ACRYLITE® EndLighten acrylic sheet & Abrasion Resistant ACRYLITE® EndLighten acrylic sheet

Specifically engineered for edge-lit applications, ACRYLITE® EndLighten acrylic sheet is a transparent, light diffusing acrylic that exhibits special light conducting properties. Whether for artwork, signage or accent lighting, ACRYLITE EndLighten sheet makes it possible to construct flat, large-surface, single or double-sided displays, light boxes, LCD displays, poster panels, room dividers and much more.

ACRYLITE EndLighten sheet is also available with an abrasion resistant coating which offers easy fabrication and extended service life of your sign or display.

Features & Benefits:

- Uniform illumination and neutral color presentation
- Maximum light transmission (> 92%)
- Enables ultra slim (< 2") light panels
- Printed media pops even during daylight
- Works with LEDs, RGB LEDs, CCFL & fluorescents
